

envy executive

The Envy range of executive furniture has a strong identity with a great aesthetic impact.

The range creates a perfect balance between functionality and design, between elegance and technology.

loop executive

The elegant design and refined details are the distinctive features of the Loop executive range.

Style and professionalism are in harmony with image and performance.

wavezone executive

The Wavezone Executive range is designed with an organic shaped desk.

With it's traditional design, it fits into any working environment and combines aesthetics and maximum efficiency.

wavezone open plan

Wavezone is a modular desking system designed to compliment the aesthetic appeal of wavezone executive.

Wavezone creates a work setting that will advance business goals, and with the inherent flexibility creates numerous workspace solutions for management and clerical environments.

Screens and accessories, as well as integrated cable management solutions are optional, and ensure that Wavezone can easily be upgraded and successfully enhance a company's image and performance.

The range includes a variety of storage units and personal filing drawers.

trim executive

The Trim range is a prestigious executive collection.

The range offers functionality and design with a minimalistic style.

orbit executive

The Orbit Executive range is distinguishable for functionality and chromatic features.

Structures of the desks, made of aluminum frames and joints under the working tops are integrated by different storage elements, complementing the range.

Meeting tables, pedestals and storage units complete the range.

panel executive

Panel Executive offers clean lines for elegant compositions.

With its traditional design, the range fits into any working environment.

Due to the architectural synthesis of its structural elements the strict lines offers a style that combines aesthetics and maximum efficiency.

boardroom/conference tables

Spaces for meeting and conferences are places of modern productivity.

A functional portfolio of furniture is needed to finish these communicative areas.

This can range from multi-part conference tables to meeting tables and boardroom tables.
